tf 861 Hongkong, let May, 1869. Will be published in Calentia, about the 10th TIME INDIAN ECONOMIST STATISTICAL REPORTER Monthly Journal devoted to Moonomic Statistical Inquiries concerning India. ROBERT. KNIGHT (Times of India),

Fellow of the Statistical Scolety, London. Subscription 24 Rs. a year in advance; 30 Rs. Pagoda Island, Footbow,

Mr. KNIGHT'S retirement from the Daily Press of India will set bim free on the lat July next, to establish a journal devoted exclusively to these economic and statistical inquiries which have been pursued by him for many years past in the columns of the Times of India. The Indian Regnamist will at the outset be published on the lot of every month, and will be devoted almost exclusively to the discussion of economic questions concerning India. The Sintistical Benerier, which will appear as a supplement to sach humber, with separate paging and index, will gather together and patietics as exist or population, revehues, debt, and pub is works Agent, on the ground floor of the Hougkong of the empire, and will present them in the Hotel, nader the style of GUEDES & Co. simplest and most neeful form the Editor can

It is hoped that the publication of this journal will give a new impotus to statistical inquiries in India, and be the means of spreading exact information upon questions on which Indian publicists and statesmen are now constantly at fault from the want of it. The most manifest defect probably in our administrative system is the fact that there is not a district in the empire the exact position and resources of which are, known to no. The very first condition of successful administration is thus wanting. In Orissa, the other day, a narrow export of 80,000 tom of rice from a province containing 3,000,000 of people growing nothing but rice, was held to be conclusive proof that large food reserves existed in the province, while a very brief statistical inquiry would have shown that so narrow an export in the face of the high prices that had been ruling for years, proved that the province There are no satisfactory statistics at prosent in India upon any subject but its trade, and General Commission Agent.

RUSSIAN TRANSIT TRADE AT TIENTEIN.

The Overland Trade Report contains the following

Passame of the report by the British consul at Tion-

tsin on the above Trudo :-

Mr. Mongan, H.B.M. Consul at Tientain, in supplement to his report upon the Trade at that place, gives some very valuable particulars concerning the Russian Transit Trade. After reviewing the rise of the Trade between the frontier town of Kiachta in Eastern Situria, where up to 1861, a corporation of Russian merchants, exclusively of first class guilds, had monopolized the barter Linds with China, for more than half a century, sarrying on commercial intercourse with a similar body of Shansl merchants, who were catablished at the adjoining town of Mai-ami-ch'en, just within the at Whampon and have immediate disputch for Chiose frontier, and separated only from the Ruthe above port. sian town by an open square of neutral ground, and pointing out the reduction in this trade which resulted from the competition of Hankow and Tientsin, Mr. Mongan-proceeds to notice a modifi-cultion in 1868 of the Regulations framed by M. Banyzac and the Prince of Kuno on the 20th Mebruary and 4th March, 1862, under which some important concessions were also obtained for Russlan traders at Kalgan and in Mongolia,—and under which Brick Tea had to pay the Tariff rate of Tla. 2.50, and also a half duty—by, which the half duty was abolished. The result of this was to increase the amount of Ten landed at Tientein for the Russian market from 1,647,888 lbs. in 1865 to 7,033,029 lbs. in 1868. Mr. Monean points out that, though a British or any other Foreign mer-chant, the subject of a Treaty Power, might, under the favored nation clause, send brick tea to Kiachta, on payment of the Special Tariff duty of six made per picul, a Chinese subject cannot do Captain Oronto, having the greater portion of this, but in placed at a disadvantage with the fareigner, as far as duties are concerned, whether he
import his brick tea into Tientsin in native or foreign bottoms. He also observes that, although the regulations provide that the Eussians are not tf 1315 Hongkong, 7th July, 1869. to form regular mercantile establishments at the place, Kalgan contains at least two Russian firms, with regular hong names in Chinese cha- HE Ship racters, like any of the mercantile firms at Shanghai : and Mr. Mondan also points out the important fact that, whilst Chinese goods bought by Capt. Morton, will have disputch for the above. Russian merchants at Tientsin, or Tung chow, for port, transport overland to Russian territory pay an export duty equal to that levied according to the general tarlif of 1868, the same kind of goods, conglet by the same class of merchants, at Kalgar for the same destination pay an export duty equal
